More than a Gift!

Remember the thrill of sharing childhood treasures? I used to delight my friends with wooden toys and my grandma's pickles. As I grew up and left my home state of Odisha, I continued the tradition, gifting beautiful Odia handlooms and handicrafts to my new friends and colleagues. The joy on their faces was priceless. Now, those handcrafted pieces adorn their homes, a testament to the lasting joy they bring. This experience fuelled my passion for sharing good things. At Gardenia Whispers, I'm captivated by the fresh aroma and taste of our hand-picked spices. It's a treasure I want to share with the world. Our gift boxes are a celebration of this passion!

Regards

P Nalini Dhall

SHAMALI KAMBLE

A valuable and equally adorable gift pack for the near and dear ones. Aromatic treat was so liked by all the recipients, especially due to the freshness of the content. Packaging is excellent and the personal touch with printed name with message card on every box, was cherry on the top. Highly recommended for the fresh, healthy, yummy and aromatic gifting treat for loved ones.
