Garden fresh and Natural
Sourced at farmer doorstep
Packed immediately after harvest
Lab tested for purity

- A Women Run Enterprise

Our cardamom is grown in the high hills of the Idukki district of Kerala, popularly known as the Cardamom Hills, the birthplace of green cardamom. Perfect soil clubbed with cool and humid twin weather provides the perfect environment for cardamom to grow with maximum aroma and potency.

Our farmer partner and his community have been experimenting with a blend of both natural and organic farming for more than a decade to produce the best quality cardamom that are chemical free and preserve the environment for generations to come.

Our pepper comes from the lush green hills of Wayanad in Kerala, the native place of pepper. Our farmer grows pepper in a natural and sustainable way, using Oak plants as shade trees and organic manure as fertilizer. They harvest pepper by hand, just before the berries turn red, and dry them in the sun. We source our pepper directly from our farmers immediately after harvest, ensuring that the aroma, flavour and potency are preserved.
