MORE THAN A GIFT!

For me, Gardenia Whispers began with a simple thought — to share the purity, nostalgia, and warmth of our organically grown spices. Each aroma carries a touch of childhood memories, reminding us of the flavours we grew up with. Every gift box is crafted to bring a smile, revive moments, and spread happiness.

With every Gardenia Whispers gift, you also support:

- Sustainable farming
- Local farmer communities

Let's share goodness, together.

SOURCING – OUR SPECIALITY

We take pride in where our spices come from.

We partner only with farmers who follow traditional and conventional methods of harvesting from authentic sources.

To support our farmers, we pay above-market prices and buy our yearly forecast directly from them. Have a glimpse of our sourcing through Shruti's artwork.

"The one point I fully agree with the other reviews that I have read, is 'the amazing lingering aroma and the beautiful color of the cardamoms I purchased.' They are indeed of a very high quality and have really enhanced the flavor of sweet dishes like payasam, kheer, etc and of course when adding as a 'tadka' to my meat dishes.

Have purchased the packets of cardamom and cloves and distributed them as Christmas gifts to many of my family members last December. An unusual gift, but it sure was highly appreciated. Thank you."

"We express our heartfelt thanks for the lovely items we purchased from you! The spices were absolutely delightful! Everything arrived promptly and in perfect condition. We're thoroughly enjoying the spices, and the spoon has become a charming addition to our kitchen. Your attention to detail, and excellent customer service have truly made our shopping experience with you a pleasure. We're already looking forward to ordering from you again soon! Thank you for your wonderful products and exceptional service."

"The spices from Gardenia Whispers are flavorful, aromatic, fresh and add a special punch to all the dishes. Black pepper is extremely fresh and adds the right spiciness to my dishes, be it cooked or raw. I use cardamom in my tea and sweets which enhances the flavor altogether. The cloves and cardamoms enhance the taste and aroma for my gravies and biriyani. I highly recommend trying the spices from Gardenia Whispers."
