“The one point I fully agree with the other reviews that I have read, is ‘the amazing lingering aroma and the beautiful color of the cardamoms I purchased.’ They are indeed of a very high quality and have really enhanced the flavor of sweet dishes like payasam, kheer, etc and of course when adding as a ‘tadka’ to my meat dishes.

Have purchased the packets of cardamom and cloves and distributed them as Christmas gifts to many of my family members last December. An unusual gift, but it sure was highly appreciated. Thank you.”

“The spices from Gardenia Whispers are flavorful, aromatic, fresh and add a special punch to all the dishes. Black pepper is extremely fresh and adds the right spiciness to my dishes, be it cooked or raw. I use cardamom in my tea and sweets which enhances the flavor altogether. The cloves and cardamoms enhance the taste and aroma for my gravies and biriyani. I highly recommend trying the spices from Gardenia Whispers.”
